SUMMARY

My name is Pedro Miguel Pereira, I'm 26 years old, I live in the city of Aveiro and I have a Master's degree in Communication and Web Technologies from the University of Aveiro. From a very young age I've been curious about technology and what it offers to our lives, which has led me to get interested in application development, with a special focus on web development. I'm motivated, committed, and I enjoy collaborating with others, exchanging ideas with coworkers, and I always give my best in every project I'm involved in. Im also fluent in both Portuguese and English.

SKILLS

Angular, CI/CD Tools (GitHub Actions, GitLab, Bitbucket), Docker, ESLint, Prettier, Express.js, Git, JavaScript, Jest, Testing Library, MongoDB, Next.js, Node.js, React, React Native, Redux, Tailwind CSS, TypeScript, Vite, Zustand.

EXPERIENCE

Frontend Developer
Research Grant

University Of Aveiro
October 2022 - July 2023

Developed the frontend of a workforce engagement web platform using React, ensuring a seamless and responsive user experience. Took responsibility for selecting appropriate technologies to optimize the platform's performance and scalability. Successfully integrated the frontend with a .NET API, enabling robust data communication between client and server. Produced comprehensive documentation for the developed solutions to ensure maintainability and ease of knowledge transfer.

Usability & User Experience
Curricular Internship

Altice Labs
May 2020 - July 2020

Analyzed project requirements to design and develop a tree-like select box component, ensuring it met user needs and functionality standards. Conducted a thorough technological analysis to determine the best approach for implementation. Built the component using Angular and validated its usability through testing, ensuring an intuitive and effective user experience.

Web Developer
Academic Internship

Decimal Informática E Gestão, Lda - Aveiro
October 2015 - April 2016

Managed and updated content across the company's websites, ensuring accuracy and timely delivery. Maintained the company's online shop, keeping it functional and up-to-date. Developed a firefighter management web application using C# and .NET, streamlining administrative tasks.

Professional Aptitude Project
"IHelp" IOS Application

Aveiro
October 2015 - April 2016

Conducted a market analysis to identify the need for a first aid app that guides users through performing life-saving procedures. Designed the complete user experience and interface, ensuring accessibility and clarity. Developed the iOS application using Objective-C, incorporating features like pulse reading through the camera. Presented the app at Escola Secundária José Estêvão and the Catholic University of Porto, showcasing its potential impact on first aid accessibility.
